But it seems that worse things are to be done by Great Britain at the fishing grounds the year than were done last. According to the New Brunawacker, one of the most reliable of the Canada organs, every one of our vessels found tashing within the prescribed limits will be seized and confiscated. Well, we want to know what terrible manifestation President Pierce will in that event make. Will be fight? Will be the promptly order ships of the line, frigates, sloops, gun-boats, and bomb-ketches to the fishing grounds? Or will be "look around him" and and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and then "make up his mind what to do," being larged and larged

and Frankfort railroad has hitherto been under such arrangements as to be of comparatively little advantage to persons residing along the little advantage to persons residing along the little. The passenger train arrives in the city about 12 o'clock, and leaves at 2 o'clock, thus giving scarcely any time to persons who wish to come to the city for the transaction of hust nees. We are glad to announce that after the first of July a change will be made. An accommodation train will come to the city in the morning and go out in the afternoon. This arrangement will enable those who wish to bring day in their viterous glazes. Sur David Bewmorning and go out in the afternoon. This arrangement will enable those who wish to bring the produce of their gardens and dances to market to do so. It will enable many to take heir tamilies to the country and carry no business in town. The beneficial effects of the arrangement will me a short time be visible in the improvement of our markets, and in the receipts of the road. The president of the road, A. L. Shotwell, Eaq, has shown in the management of the road to the road to the road to the road to the road will now more certainly rise. There is one thing in which we think a change for the better could be made. We think the golar of markets, a very decided reduction would, we think, increase the receipts of the road. A man who has only a few pounds of butter to sail can scarcely afford to pay so much as in charged at present for bringing it to mirkel.

Our government is obliged will to keep a sharp watch upon the fillibuster movements. It is well known that the fillibusters are better prepared now than they have ever been for an invasion of Cuba; but they will not make the attempt without some assurance of indulgence from this government, nor without some assurance of indulgence from the control of the control o urance to the Creoles of success in mary attempt in which they might flof its class a dice that was essential to

And so the fillibusters, it appears, are better prepared now for the invasion of Cuba thin they ever were before, but they will not venture without getting a larger force than they now have nor without some assurance that the administration will not interfere with them in their movements. We presume that some of them will even be for waiting for the a fittonial assurance, that, in the event of their falling, like hoper and his men, into the hands of the Spani result the U.S. Government will promptly interpose to save them from punishment.

Now we cannot help thinking that these fit busters are expecting a great deal too much from the Pierce administration.
